At the end of the day, the most overwhelming key to a child's success is the positive involvement of their parents." - Jane D. Hull

AACPS SUMMER PROGRAMS - 2021

AACPS has planned a wide range of summer programs for elementary, middle and high school students. Programs will be focused on helping students engage in unfinished learning following this unprecedented school year, with a focus on mathematics, literacy, and preparing for the next grade level. All programs will support students to have fun while building healthy relationships with peers, practicing skills, and learning new concepts. Most summer programming is free of charge and transportation will be available to many programs from hub stops throughout communities.

Please take time to review our Summer 2021 website at <http://www.aacps.org/summer>.

Check back often as new offerings will be posted weekly
