

From the Green Committee

Water Bottle Wednesday

Jacobsville Elementary is a green school committed to reducing waste. To accomplish our goal, we are asking students to bring their (reusable) water bottles everyday, but especially on Wednesday. Two classes each week will be awarded with our Green Committee banner outside their classroom door just for bringing their water bottles.

Plastic Bottle Lids

The green committee is collecting colorful soda and water bottle lids to use for artwork throughout the school. Please save your lids and drop them off in the media center.
