LATEST NEWS

***School Closure has been extended through the end of the school year.**

***The Board of Education of Anne Arundel County adopted adjustments to the 2019-2020 School Year Calendar that sets the last day for students as Thursday, June 18, 2020**

Principal's Message

Dear Families!

As we head into this final marking period, we continue to miss you and your children very much! We can't thank you enough for the patience and grace that you have extended to our staff during this challenging time of E-Learning. We are so proud of our students and the efforts they have made to adapt to this virtual way of learning with Google Classrooms. We thank you for your support of their learning, from the home front.

We are looking forward to the day when we return to our school building and although things will likely be different upon our return, we will at least All Be Back Together which is most important!

Please continue to check the [AACPS E-Learning website](#) & our [Jessup Elementary](#) website for updates for the most current information regarding the status of schools.

We hope that amidst this hectic and uncertain time, that you are able to enjoy family time, as we will never likely have this much quality time with our children in years to come. Enjoy every moment and take time to appreciate all the beauty that spring has to offer. Continue to read aloud to your children while having them read to you, to practice reading fluency. We hope they are practicing their basic math facts, writing in sentences and whenever possible writing responses to what they have been reading.

We miss our Jessup Jaguars every day! We can't wait to open our doors to their sweet smiles and hear their cheerful voices in our hallways and classrooms when school resumes.

We continue to wish good health for you and your family,

Anita Dempsey
Principal

Smartphones Can Serve as Hotspots

All the smartphone carriers are now supporting people turning Android phone or iPhones into hotspots. Then, you can connect your computer to the Internet through this hotspot. There is **NO COST** to do this during this time period.

How to Create a Mobile Hotspot on an Android Phone

Los Teléfonos Inteligentes Pueden Servir como un Punto de Acceso WI-FI

Todas las compañías de celulares ahora están ayudando a las personas para que conviertan su teléfono Android o iPhones en puntos de acceso. Así que puede conectar su computador al Internet a través de este punto de acceso. **NO HAY COSTO** para hacer esto durante este periodo de tiempo.
