Effective the beginning of the 3rd Marking Period, 1/31/20, we will be adjusting our dismissal procedures. Bus dismissal will remain the same. However, due to safety concerns, we have made the following changes for our car riders: All car riders must be picked up between the flagpole and fire hydrant. All car riders will be dismissed through a side door close to the media center. They will then be directed to the waiting area, as indicated on the map. No student will be permitted to walk to a car in the side lot, parked on School Lane or prior to the flagpole. In addition, no cars will be permitted in the side lot unless they are parked legally in one of the handicapped spots.

Thank you for your cooperation and concern for the safety of all students.
