

# Lock Down Drills

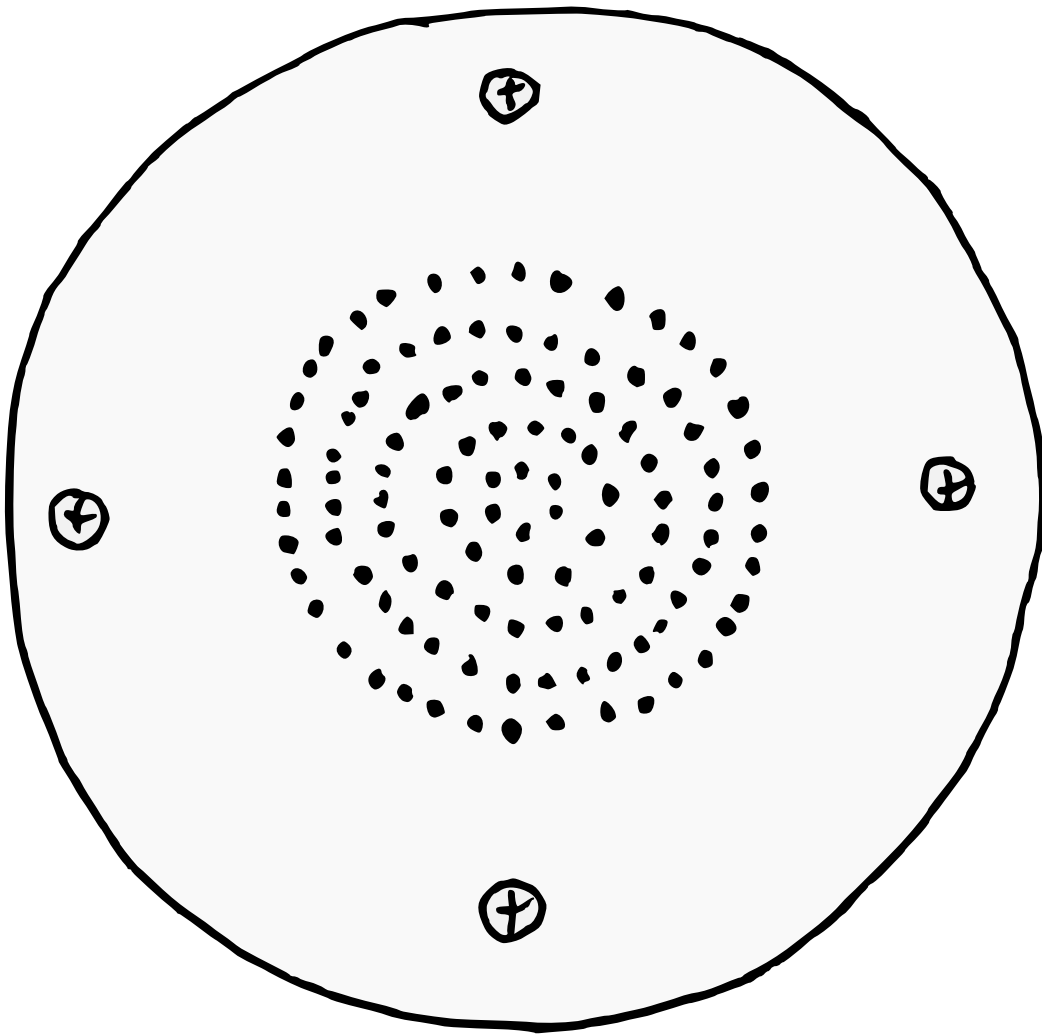

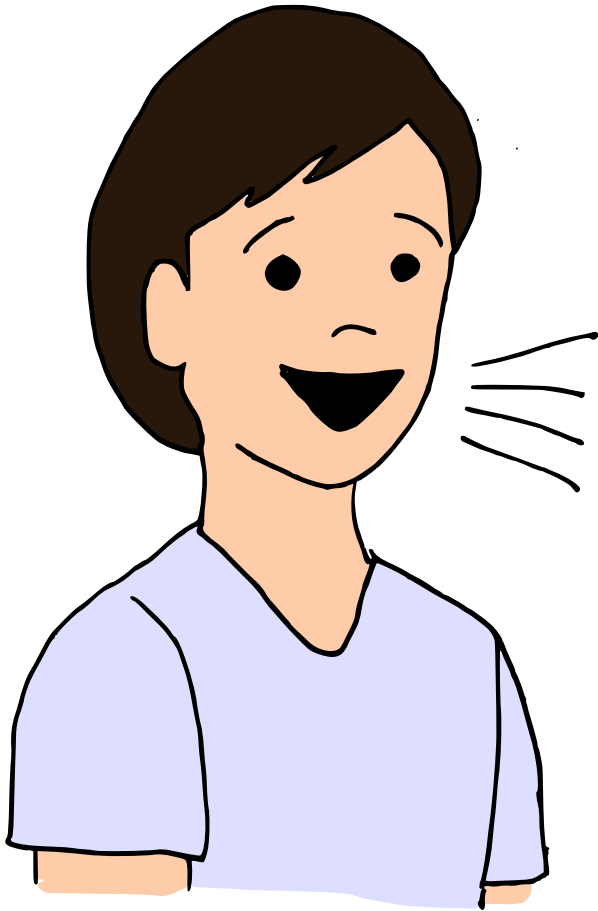

We can stay safe when we have  
practice drills.

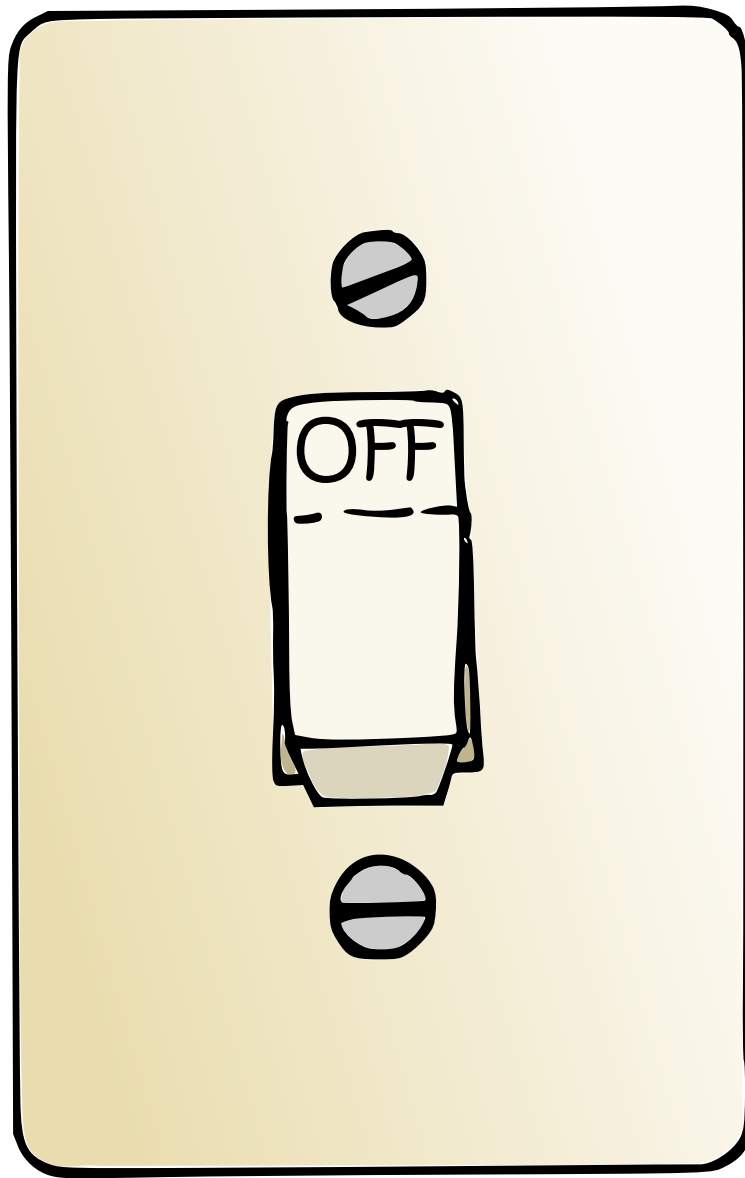

Sometimes we have a lock down drill  
at school.

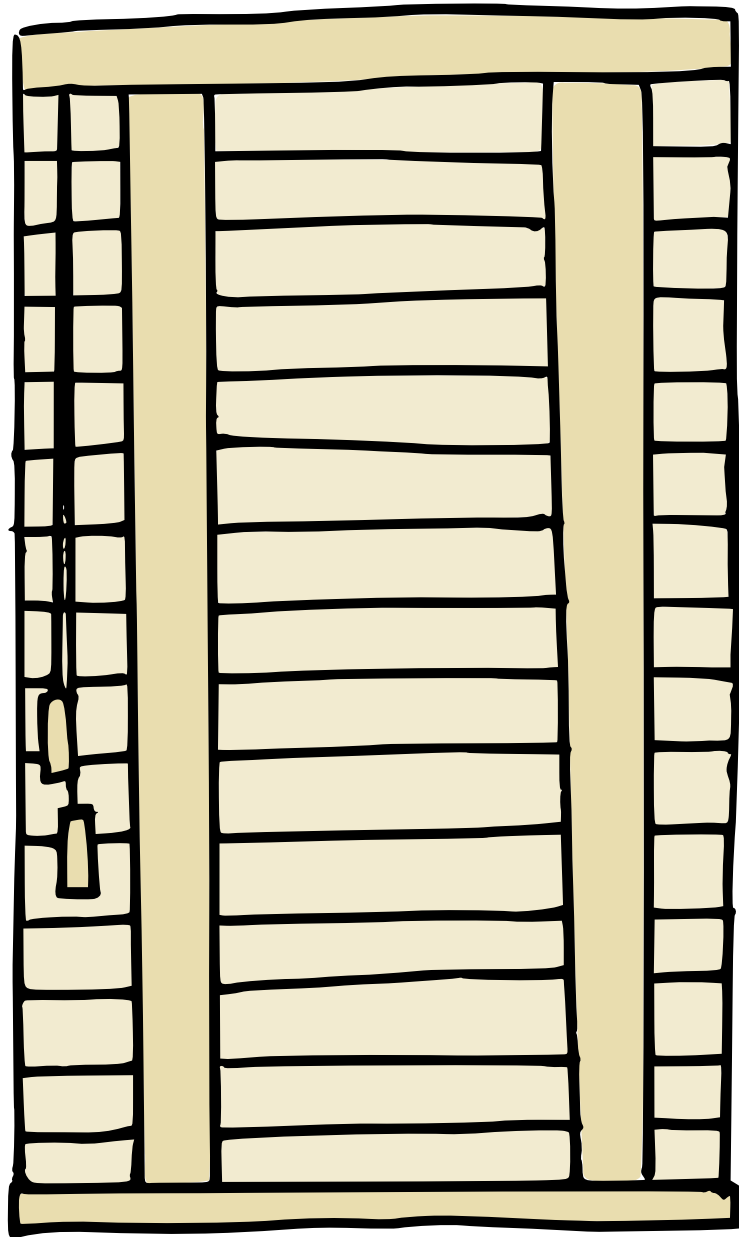

There will be an announcement to tell  
us we are on lock down.

Our teacher will give us instructions.

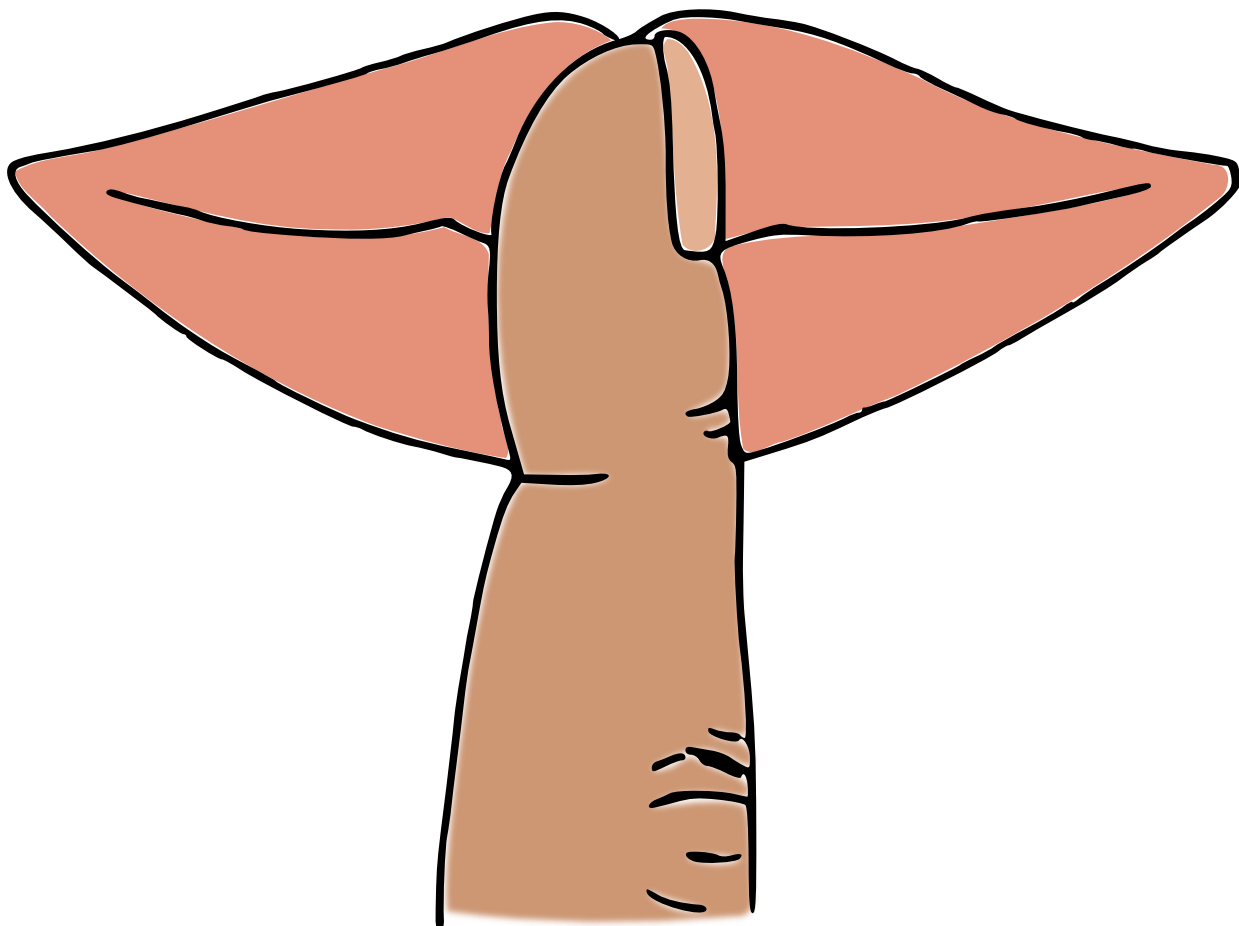

We will turn the lights off.

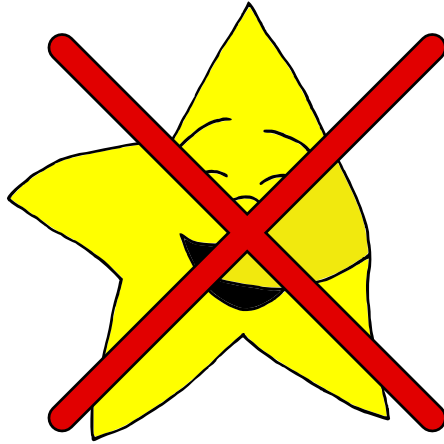

The blinds will be closed.

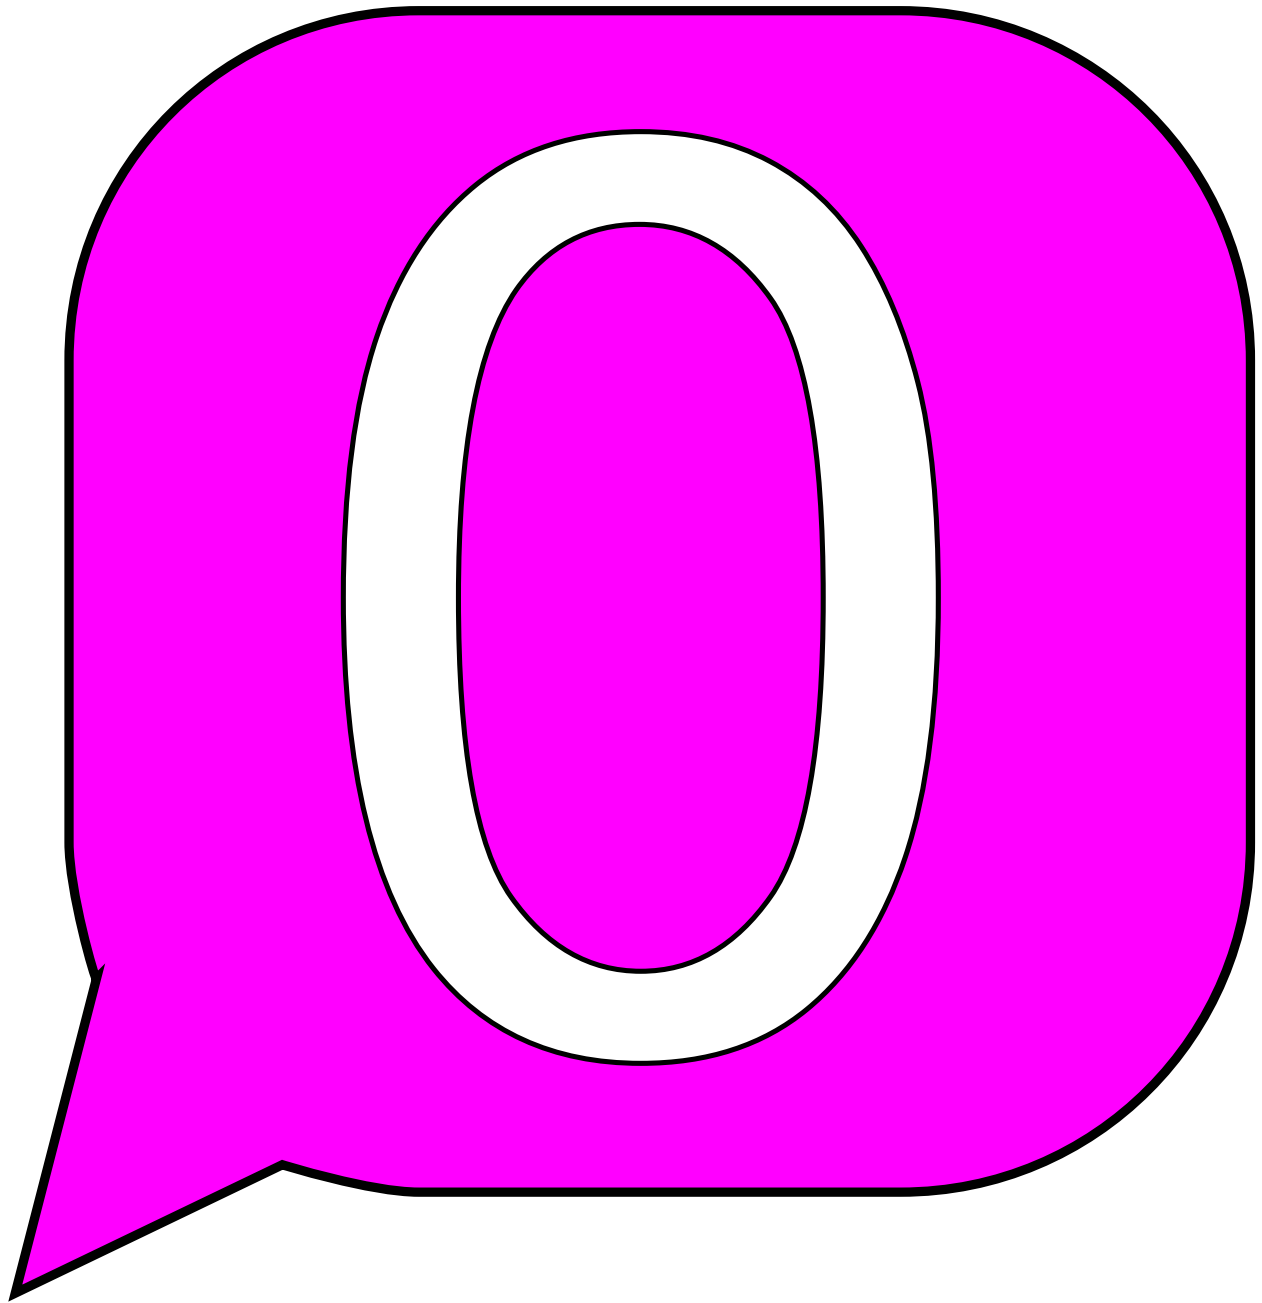

We need to hide and remain quiet in our classroom.

We should not talk.

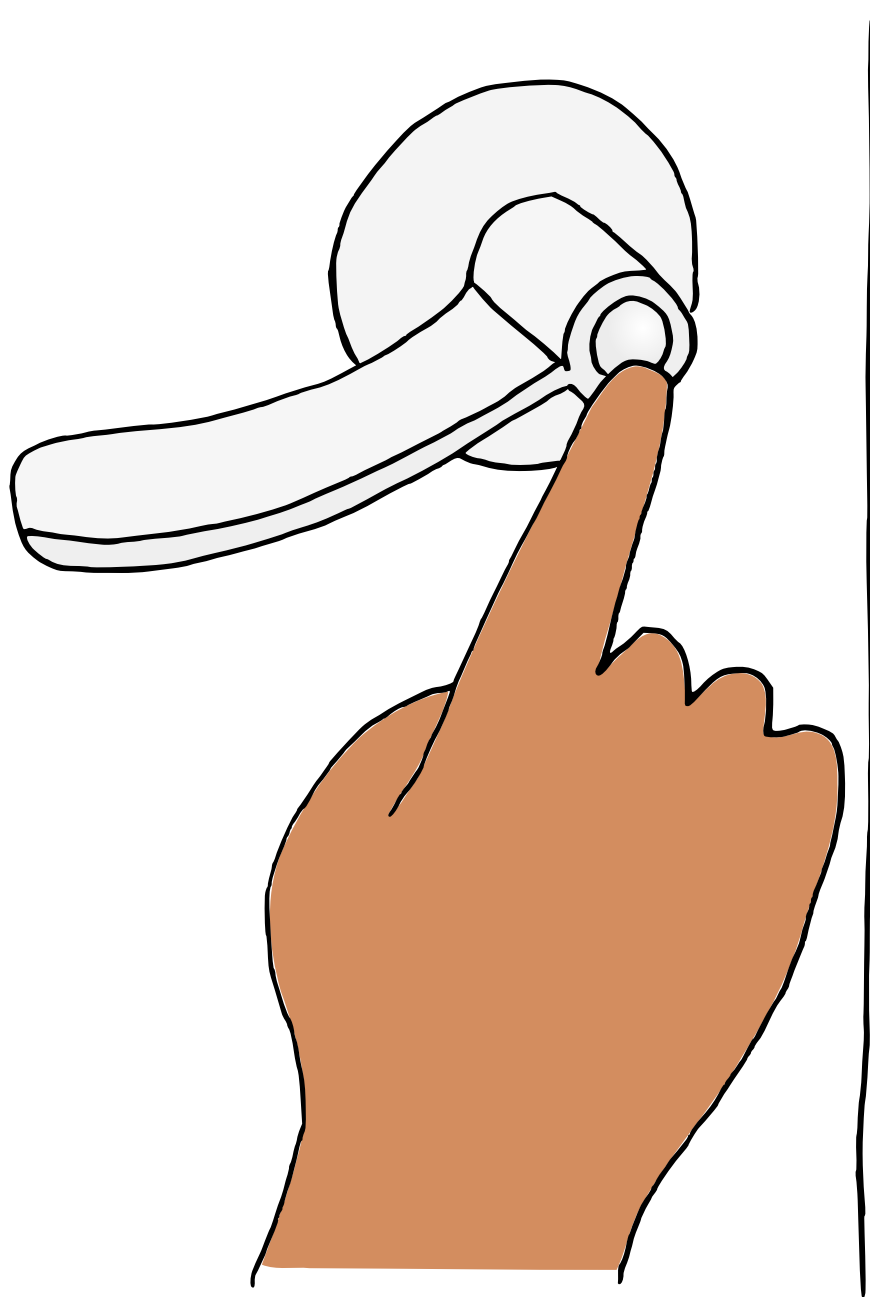

We should not laugh or yell.

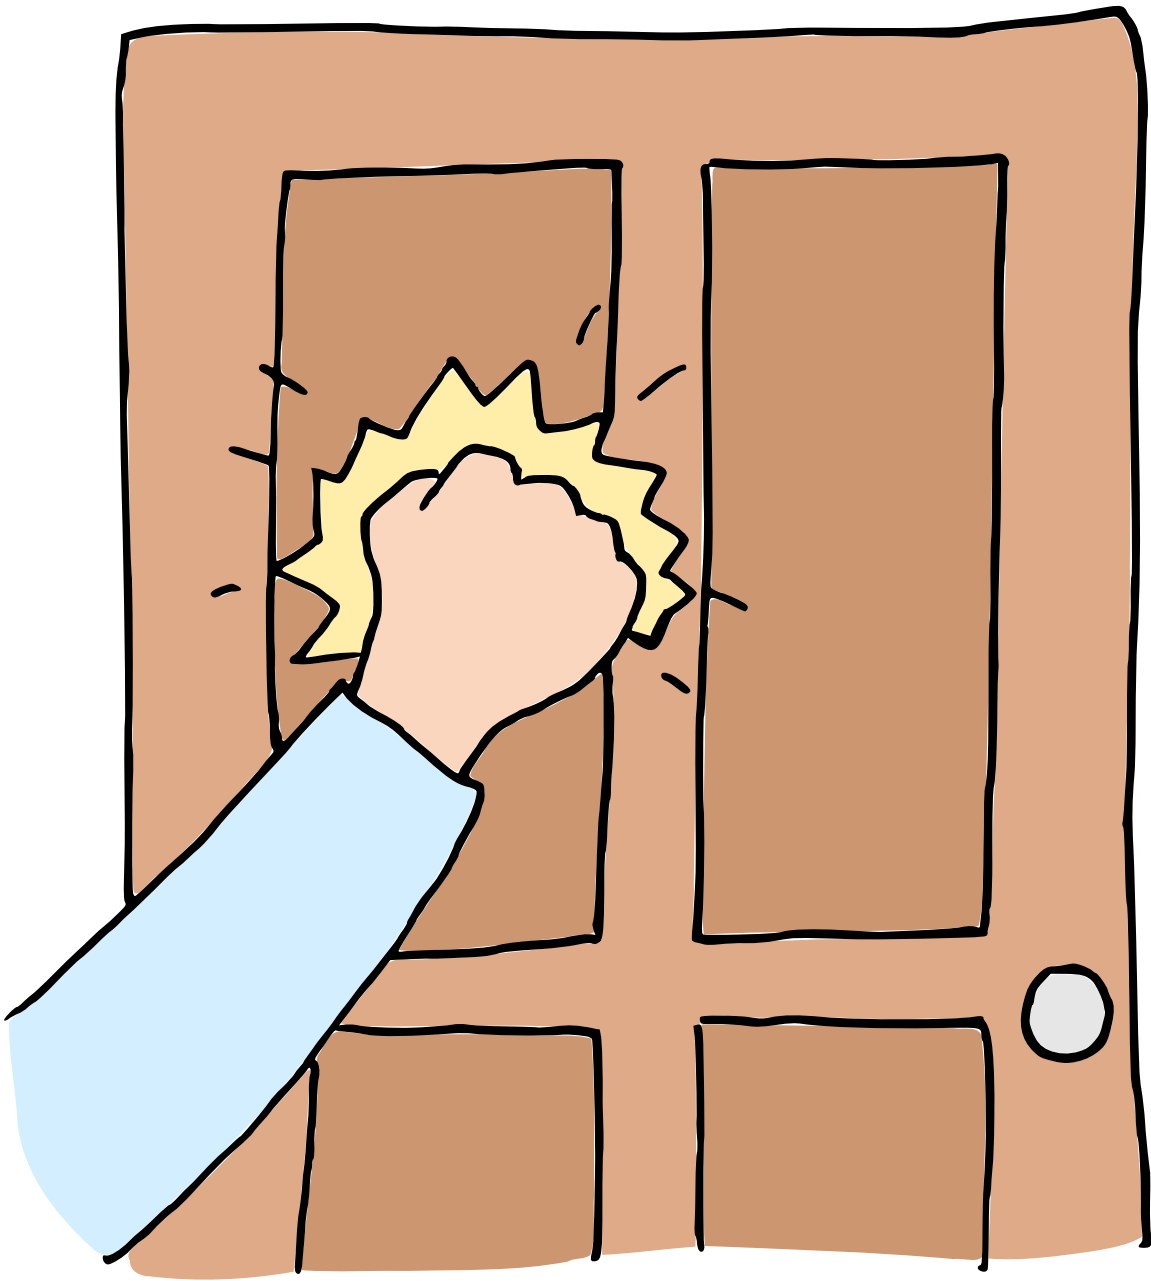

Our voice should be at a level 0.

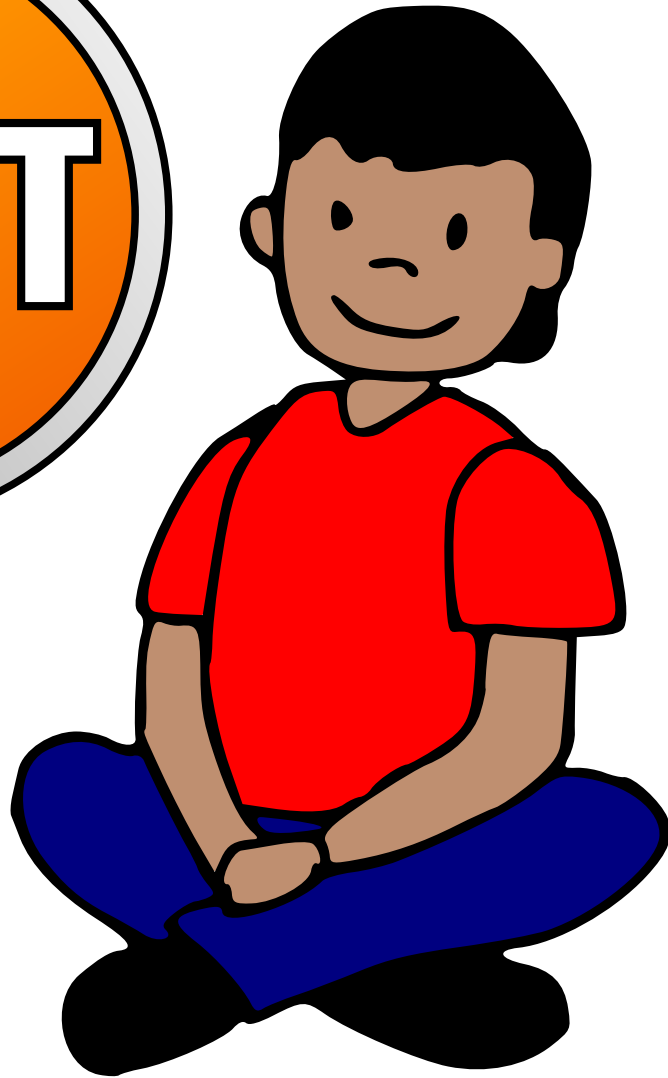

The announcements may be loud.

Our classroom door must be locked.

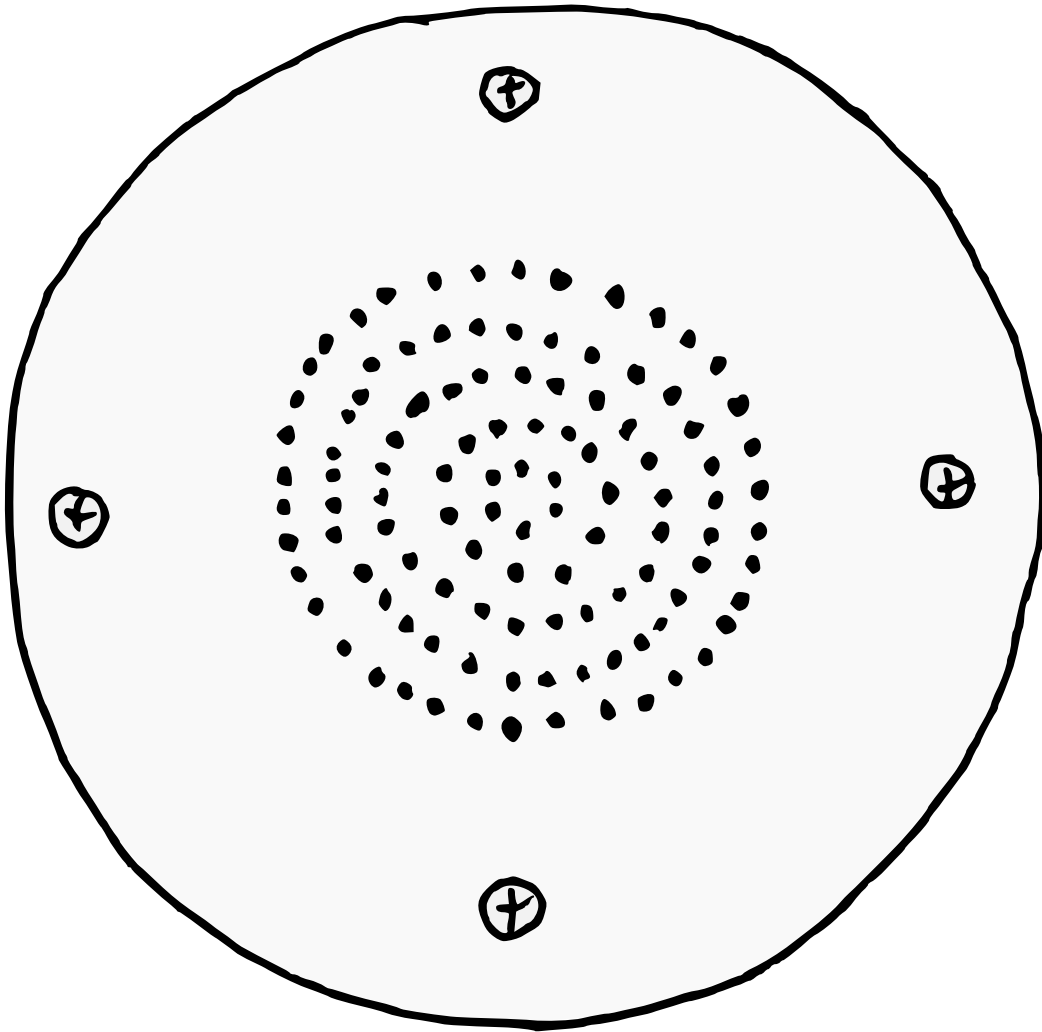

If someone knocks on the door  
during a lock down, we do not answer  
it.

We do not know how long it will take.  
We need to be patient.

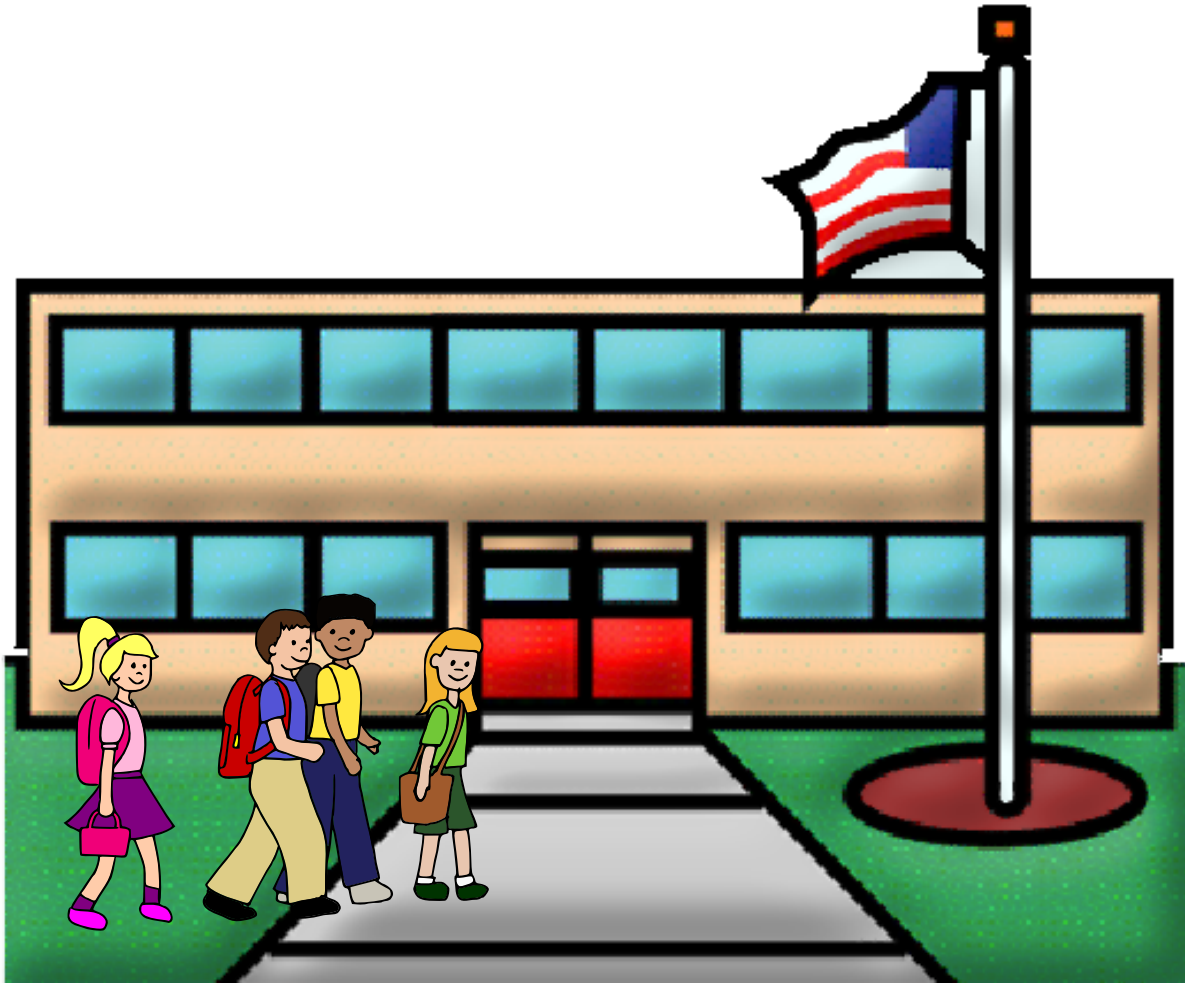

We should remain calm.

There will be an announcement to tell us when the drill is over.

After the drill, we will continue learning in our classroom.

Practicing drills helps us stay safe at school.
