### June 2021 Newsletter

We are in the countdown to the last days of school this year!

June consists of finishing up units of study including writing their own fairy tales, Environmental Action Project, and Math concept and skill reviews.

Keep reading over the summer and practice multiplication and division facts.

Have a great summer full of fun and relaxation!

# Reading

The goal of the Explicit Comprehension block is to use a variety of strategies that enable students to apply grade level standards to on-grade level texts. Teachers model the strategy with a current or previously read Interactive Read Aloud text. Then students engage in guided practice of the strategy and then independently apply the strategy to an on-grade level text. There are also writing to source lessons that explicitly teach students how to use text evidence to respond to a prompt.

Remaining topics in the fourth quarter are summarizing, sequencing, lesson learned, and write to source lessons to convey ideas and information clearly in writing.

# MATH

We will be reviewing math concepts taught throughout the year as well as multiplication and division facts. Remember to play on [firstinmath.com](http://firstinmath.com)!

# SCIENCE/SOCIAL STUDIES

Students will finish their study on taking action on an environmental issue. They will create a presentation slide about their topic.

In Science, students will read articles about topics related to the environment that will require their opinion with valid reasoning.

**IRA/WRITING** IN WRITING THIS MONTH, WE ARE FINISHING OUR WRITING UNIT ON FAIRY TALES! THE STUDENTS ARE APPLYING FAIRY TALE ELEMENTS TO MAKE THEIR OWN FAIRY TALE.
