

**We provide the students. You provide the magic.**

**We're looking for recently retired teachers to come back—for just a limited time—as we continue to hire teachers in August and September.**

**How can you help?**

We need someone who can do what few others can. Help us give all students a healthy launch into their school year. Without you, some students may begin the year with long-term substitutes. By bringing the magic of learning and your veteran knowledge of classroom management into a classroom, you can help students learn routines, understand expectations, and develop a love of coming to school.

**How long will you teach?**

We'll need you during the first nine weeks of school, while we're actively working to fill all vacancies. When we hire a new teacher for your classroom, we'll pair you with them for a few days of transition. This critical transition time gives you the opportunity to help the students get to know their new teacher *and* helps the teacher understand the routines and practices you have set in place along with the joyful relationships you have begun to build.

**What's in it for you?**

This is a **temporary** job with a definite start and end date. You can help our students while planning to exit by November and get back to your retirement plans. The pay is better than most part-time jobs (a new teacher's salary). The gift you give a child—an amazing start to a new school year—is priceless.
