

ANNE ARUNDEL COUNTY PUBLIC SCHOOLS

Memo

To: Principals
From: Alex L. Szachnowicz, P.E. Chief Operating Officer
Subject: Asbestos Notifications

ALS

Date: June 1, 2020
Instructions:
Copies to: Senior Staff

In accordance with the Asbestos Hazard Emergency Response Act (AHERA), Anne Arundel County Public Schools (AACPS) is required to publish the following annual notification. Please ensure that this information is disseminated to your members.

In October 1986, the U.S. Congress enacted AHERA. Under this law, comprehensive regulations were developed to manage asbestos containing materials in public schools. These regulations mandate that school systems identify friable and non-friable asbestos, develop a management plan, and implement necessary response actions. The program for meeting these responsibilities is outlined in the management plan.

All personnel working in an AACPS facility are instructed to: (1) review the management plan prior to performing any work, and (2) not disturb asbestos containing materials. Only accredited, licensed asbestos professionals can perform asbestos-related activities.

The management plan contains information from previous inspections, response actions, post-response action activities, and surveillance actions planned or in progress. This plan is located in the main office of each facility.

For buildings completed after October 12, 1988, our management plan consists of the exclusion documentation including this notification. This documentation indicates that to our knowledge, no asbestos-containing building materials were used or specified in the construction of these buildings. These schools are as follows:

ANNE ARUNDEL COUNTY PUBLIC SCHOOLS  
**NOTIFICATION**  
OF AVAILABILITY OF ASBESTOS  
MANAGEMENT PLANS

On October 22, 1986, the United States Congress enacted the Asbestos Hazard Emergency Response Act (**AHERA**). The final rule, published October 30, 1987, requires all public and private elementary and secondary schools to address various asbestos issues including inspections, development of management plans, notifications, training, operations and maintenance activities, response action, post-response action activities, re-inspections and periodic surveillance activities that are planned or are in progress.

The Anne Arundel County Public Schools' asbestos management program has been structured to fulfill the AHERA requirements. A management plan developed for each facility outlines our program and AHERA compliance activities. All personnel who work in an Anne Arundel County Public Schools facility are instructed to: (1) review the management plan prior to performing work, and (2) not disturb asbestos containing materials. Accredited, licensed asbestos abatement professionals will perform all asbestos-related abatement activities.

For buildings completed after October 12, 1988, our management plan consists of the exclusion documentation including this notification. This documentation indicates that to our knowledge, no asbestos-containing building materials were used or specified in the construction of these buildings. These schools are as follows:
