Advanced Robotics

AACC summer camp registration link
coming in **Mid-February**

NO COST TO THE PARENTS

Program a robot to overcome daily class challenges using visual and text based programming. See first-hand how your program translates into action as you attempt to control your robot sensors and maneuver around obstacles. With a teammate, apply different coding concepts while using scientific methods to formulate, observe, experiment, test and modify your robot. Note: Offered in partnership with Black Rocket Productions.

Beats and Jams: Digital Music Creator- NEW!

AACC summer camp registration link
coming in **Mid-February**

NO COST TO THE PARENTS

Begin your rise to the top of the charts with digital music production! Just like today's top artists, you can design your own beats or remix a mashup of your favorite songs to become a digital composer and sound engineer. In this course, students will learn to produce digital music, record sound, make sound effects, and mix their own tracks. No prior music experience is necessary. Student-created soundtracks will be available on a password-protected website to share with friends and family. Students will work in pairs or teams for most of the program. Note: Offered in partnership with Black Rocket Productions.

July 29-Aug 2

M-F | 9am-Noon

Grades: Rising 7th - 9th

Capacity: 10
