

World Languages in STEM/BMAH High School Magnets

The STEM/BMAH magnet programs require at least three (3) years in the SAME language. Below is a list of the World and Classical Languages offered at each of the STEM/BMAH magnet high schools. Based on the offerings below, students entering the 9th grade in a magnet program may need to select Level I of one of the World Language offered in their magnet school. American Sign Language (ASL) may be taken as an additional elective but not in place of the required three years of the World Languages noted below.

North County High School STEM World Language Offerings

French
German
Spanish
